

The following schedule includes readings and homework questions. The questions are to be answered in essay style for the dates given. Homework will be collected at the beginning of the class for which it is due. Answers must be at least 500 words in length. They must be based on information from the readings, your knowledge of psychology, and, if appropriate, your personal experiences, and must be comprehensive in nature. Please note that it is imperative that you use quotation marks and the proper format for citation if you quote from these or other sources. The grade for homework will be determined by taking the average of the 8 best marks. The homework marks constitute 40% of the final grade in the course.

September 11, 2018

Topics: Orientation, introduction, perspectives on consciousness, definitions of consciousness, definitions of materialism, history of materialism, disappearance of matter, intentionality, qualia, Turing test, computationalism, promissory materialism, Chinese room argument.

September 18, 2018

Topics: Scientism vs authentic science, consciousness as an emergent property, functionalism, binding problem, panpsychism, anomalous phenomena, beliefs about consciousness and reality, personality correlates of beliefs about consciousness and reality, intelligence correlates of beliefs about consciousness and reality, materialism as dogma.

Reading: Chapter 1.

Question 1: Describe the beliefs about consciousness and reality dimension found by Barušs and Moore. What difficulties does the existence of such a dimension pose for the study of consciousness? Optional, as part of answer: Fill out and score the BACARQ. If you wish, you can include information about your own scores on the BACARQ in your answer.

September 25, 2018

Topics: Shared mind.

Reading: Chapter 2.

Question 2: Evaluate the evidence for the contention that consciousness has nonlocal properties.

October 2, 2018

Topics: Time, precognition, retrocausal recall, life reviews during near-death experiences, anomalous temporality in altered states of consciousness.

Reading: Chapter 3.

Question 3: Discuss the nature of time.

October 9, 2018

Reading week. No class.

October 16, 2017

Review.
